SUBJECT: Project NEW YORK

TO: Chief, Linz Field Unit, Detachment 35

1. Reference is made to your XOD-2367 dated 24 August 1951. Staff Group, Detachment 35, concurs with the recommendations contained in referenced XOD with the exception of the suggestion that field operative 35284 is planning to debrief subject project courier sub-sources 8877 and 8878 during their tentative visit to Linz. It is recommended that indigenous operator 6104, who is serving as an interpreter of 35284 in connection with debriefing 6104, be assigned the mission of debriefing 8877 and 8878, based on specific instructions and close supervision of field operative 35284.

2. Debriefing of sub-sources should initially be conducted in a friendly fashion. A cover story should be concocted which should derail possible suspicion of sub-sources that 6104 does not enjoy the trust and confidence of his superior officers.

3. In the event friendly interrogation does not produce the expected operational information, it is suggested that sub-sources be subjected to an unfriendly interrogation. Sub-sources should be under close surveillance during their remain in the Linz area.

4. Staff Group, Detachment 35, wishes to compliment field operative 35284 for his continuous vigorous efforts to verify operational information of subject project and for his effort to organize subject project as a controlled intelligence operation.
